Certain versions of Windows and Office are available under a, where a single product key is used for multiple installations.. Immediate activation is not required following installation, but the program must be activated within a specific period of time in order to continue to function properly.. On each boot, Windows confirms the presence of specific information stored in the by the manufacturer, ensuring the activation only remains valid on that computer, even if the product key is used on another machine.. In this case, the copy of Windows installed does not use the product key listed on the certificate of authenticity, but rather a master product key issued to OEMs called a (SLP) key.. Throughout this grace period, the user will be periodically reminded to activate the program, with warnings becoming more frequent over time. [حوصل ابرٹ مباشر بدون تحميل 2019 تسجيل](#)
